Techwarrior Computer Service Pricing

Virus/Malware/Spyware Removal Services - \$99 flat-fee

(compare to some of our competitors that charge \$299.99+ for the SAME service!)

System Optimization & Cleaning - \$99 flat-fee

- Optimize the performance of the programs & hardware of your system
- Defrag computer (and set to automatically do on a weekly basis)
- Set virus/malware scanners to scan minimum once per week
- Check for latest Service Packs that would help with system performance
- Clean dust, hair, etc from inside of the computer (yes, we open it up - our competitors don't)
- Adjust if needed PCI/AGP, etc internal cards for optimal performance
- Check amount of system RAM (Memory), and other components and offer suggestions as needed (additional fee for new hardware)

* does not include any additional hardware (i.e. RAM, etc)

Data Backup - \$99 flat-fee

- Data Backup
- Does NOT include cost of media for backup

System Corruption Repair - \$149 flat-fee

- Check & fix Windows issues, etc

* if system is too far corrupted, we can still usually recover the data via normal means, then a system reinstall would be needed, and then it would switch to the Backup & Reinstall service for \$199 (we don't double charge you)

* If data recovery is needed, there is a separate fee for the data recovery service (above and beyond normal methods)

Backup and Reinstall - \$199 flat-fee

- Backup Data
- Reinstall Operating System

Fresh Start Complete Repair - \$249 flat-fee

- Backup Data
- Reinstall Operating System
- Install Anti-Virus / Anti-Spyware
- Install Updates
- Configure
- Hardware upgrade replacement (Hardware not included)
- Software Installs (installation media must be provided!)

Commercial On-site Service - \$125/hr for Servers, \$100/hr for Workstations

- all commercial On-site services

Data Recovery (call for quote)

- Recovery of lost data

Diagnosis (no fix) - \$40 flat-fee if nothing is fixed (FREE Evaluation with Estimate)
