What is the health of your computer worth to you?
 How much productivity is lost because of "little" glitches?
 If your computer goes down, are you out of business?
 Do you spend time updating your system on a regular basis?
 Is your Virus Protection always up-to-date?

MaxMinder Subscription Service

Regularly scheduled visits for your computer can help prevent small annoyances from becoming BIG outages. It takes about 1 hour per system to have your PC-Sleuth check things out, tune things up, and give you visibility to pending failures. Your questions can be addressed. Helping you MAXimize your investment in computing gear...

Leave the computer "fixes" to the professionals—So you can get BACK to BUSINESS.
